

# FS1200

## Rover XC™ FS1200: Ride-On Spreader

The Rover XC™ FS1200 is a rugged ride-on granular fertiliser commercial spreader, perfect for applications that don't require a liquid application. The large 90 kg granular capacity hopper enables up to 5000 m<sup>2</sup> of treatment coverage. A lower centre of gravity provides excellent performance on sloped terrain. The 100% stainless steel frame and coated Peerless transaxle resist corrosive granular chemicals for added life. Its narrow width of only 90 cm allows for easy access through gates for residential areas and apartment complexes.

- Spyker 220-series hopper
- 100% Stainless Steel Frame
- Ergonomic Controls
- Best-in-Class Maneuverability
- **Comes with 2-Year warranty\***

**£9,200**
